
State of the Art Technology

"Today, electronic information is commonplace. People get their cash from electronic devices. Groceries are scanned in the supermarket checkout line. Every classroom accesses electronic information on the web. Our new evidence technology brings the Courts into the present age. Now it's the Court's turn to give our citizens the information they need -- and in a form they can use."

Richard D. Sletten, Clerk of Court

Courtroom Technology

The United States District Court for the District of Minnesota recently began the installation of new Courtroom Technology. Training is being offered in both the Minneapolis and St. Paul Courthouses to introduce lawyers to the new technology and give them an opportunity to try out the technology in a classroom atmosphere. Training for this new technology will be on-going as new attorneys are admitted into the Federal Court. There is no cost associated with the training. We hope that you will take advantage of this training opportunity.

Training Offerings

To view scheduled training sessions, please visit our web site (www.mnd.uscourts.gov) and click on the Courtroom Technology link. For additional questions, please call Kristine at 612-664-5125.

CLE Credit

Participants can obtain 1.0 credit of CLE for attending a Courtroom Technology training session. Forms and additional information can be found on the District Court of

Minnesota's website.

Training is hands-on for the participants.

Class Size

To make the experience more personable and allow for hands-on opportunities, class size is limited to 12 participants.

Customized Training

Customized classes are available upon request. Classes can be scheduled to accommodate smaller class sizes, employees from one law firm, or on a date not published in the schedule.
