

**UNITED STATES DISTRICT COURT
DISTRICT OF MINNESOTA**

In re: GUIDANT CORP. IMPLANTABLE
DEFIBRILLATORS PRODUCTS
LIABILITY LITIGATION

MDL No. 05-1708 (DWF/AJB)

This Document Relates to:

Leopoldo Duron, Jr.,

Plaintiff,

v. Civil No. 06-25 (DWF/AJB)

Guidant Corporation, Guidant Sales
Corporation, Boston Scientific Corp., and
Cardiac Pacemakers, Inc.,

Defendants,

and

Bloomberg, L.P.,

Intervenor.

ORDER

Guidant sent the Court a letter dated August 24, 2007, in response to Bloomberg, L.P.'s Motion to Intervene and Unseal Summary Judgment Motion Papers and Associated Materials (MDL 05-1708 (DWF/AJB), Doc. No. 1930; Civ. No. 06-25 (DWF/AJB), Doc. No. 177). Guidant attached six exhibits to its August 24, 2007 letter. Those exhibits describe which documents Guidant agrees to unseal and which documents it believes should remain sealed under the Protective Order that governs this case. Guidant did not file its letter or exhibits on CM/ECF, and it did not provide Bloomberg, L.P. with

copies of all of its exhibits. For the documents that it contends should remain sealed, Guidant, among other things, gives a description of the document and provides a basis for its assertion that the document should remain sealed. In Exhibits C, D, and F, some of those descriptions are very generic, and some descriptions are more specific.

Because the Court intends to use the exhibits attached to Guidant's August 24, 2007 letter in its upcoming Order on Bloomberg, L.P.'s motion, **IT IS NOW HEREBY ORDERED** that:

1. Guidant shall electronically file on CM/ECF its August 24, 2007 letter and newly revised attachments¹ no later than Friday, September 28, 2007. Guidant may redact those portions of the exhibits that contain a specific description of a document or specific basis for sealing, and it may file the redacted version of such exhibits with its letter.

Dated: September 26, 2007

s/Donovan W. Frank
DONOVAN W. FRANK
Judge of United States District Court

¹ In response to the Court's request, Guidant slightly revised the exhibits on September 10, 2007.
