---

On March 14, 2008, the Claims Review Committee submitted recommendations to the Court for base allocations for all claimants participating in the settlement in the above-referenced litigation that were not seeking an Enhanced Injury Fund (“EIF”) award. On March 21, 2008, the Claims Review Committee submitted to the Court recommendations for base allocations and EIF awards for all claimants participating in the settlement in the above-referenced litigation that were seeking an EIF award.

All participating claimants were entitled to object to the recommendations of either the base allocations or EIF awards. The Court has reviewed each of those objections and any responses or replies to those objections. The Court has also reviewed the supporting documentation for those claims. Individual reports and recommendations will be forthcoming with respect to objecting claimants.

For those remaining participants that did not object to the Claims Review Committee’s recommendation, the Court hereby makes the following ORDER:

1. For purposes of reviewing the recommended allocations to non-objecting participants, the Court selects for review of their complete claims files the following non-objecting claimants: Those participants whose claim number ends with the number "39." Approximately 25 files will be reviewed.
2. The Claims Review Committee shall provide to the Court copies of the complete claims file for the above-listed claimants by no later than May 30, 2008.

SO ORDERED.
