

Discovery Motions Filed under LR 37.1

When filing a motion for modification of discovery or disclosure under LR 37.1, the required Certification should be filed with the motion under "Attachments to Document." In the "Attachments to Document" screen, "Certificate of Compliance with LR 37.1" has been added to the category drop down menu.

If you forget to attach the Certificate when filing the motion, it can be filed separately using the event entitled "Certificate of Compliance with LR 37.1" under the "Supporting Documents and Responses" link in the civil menu option in ECF.
